Sagiv UltraSlide™

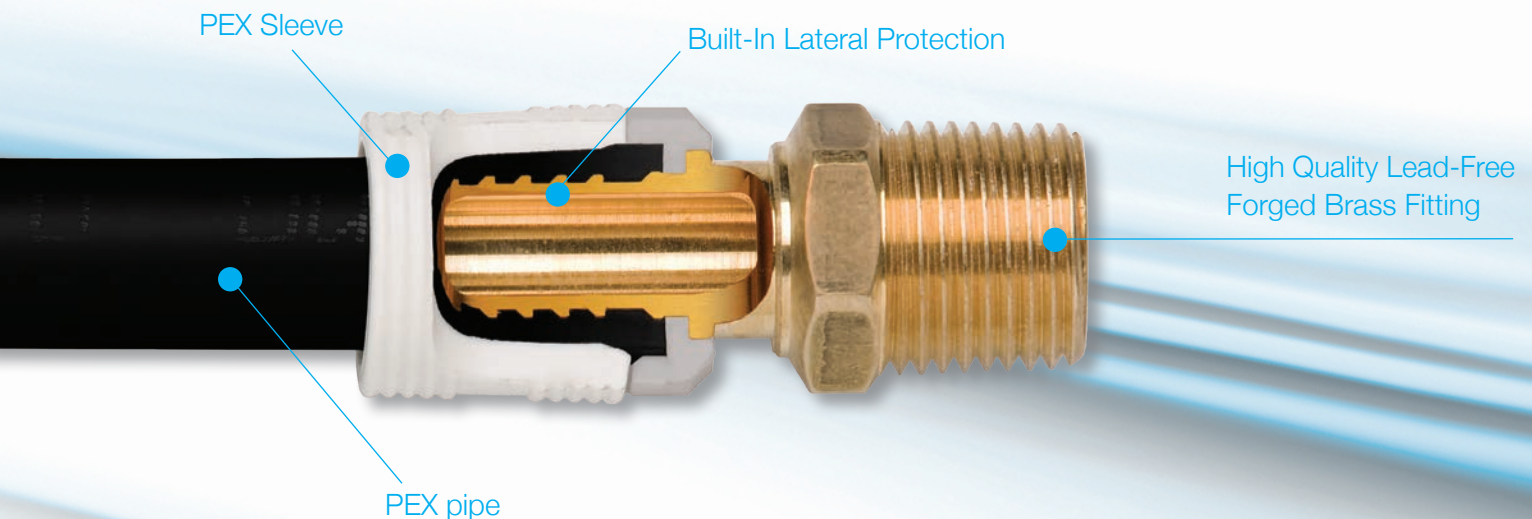

Innovative PEX pipe connection system for all PEX & PE-RT pipe types that is reliable, easy to use, and allows for leakage-free installation. The UltraSlide™ eliminates the need for O-Ring, and uses a patented sealing technology based on the penetration of the fitting tooth into the pipe surface, and an extremely strong sleeve that functions as a spring, keeping the connection area tidy and 'Dry-Forever'.

FEATURES

- Designed for Residential & Commercial Plumbing, Radiant Heating & Cooling and Fire Safety applications
- USA patent No. US 8191226
- NSF certified for the USA & Canada
- Forged Lead-free brass fittings, a technology that ensures a lifetime of strength and durability
- Used with all PE-based pipes (PEX, PE-RT, PEX-Aluminum-PEX, etc.)
- Single-step manual & hydraulic tools for ½" - 1" pipes
- Self-Align technology ensuring uniform stretching of the pipe
- O-Ring free technology allowing thinner fittings

BENEFITS

- Easy to use - No need for calibration & pre-expansion of the pipe edges
- Saves time on installation – A single tool is used for ½"-1" pipes
- Dry Forever - The O-Ring is replaced by built-in lateral protection
- Increased flow capacity - The O-Ring free technology allows for significantly thinner fittings
- Best solution for PEX & PE-RT pipes

Technology • O-Ring Free • Easy-to-use • Single Tool • Leakage Free

The UltraSlide™ PEX System Includes: High quality Lead-Free Fittings & PEX Sleeves

Innovative single-step manual and hydraulic* operation tools

The UltraSlide™ PEX Pipe Connection System in Operation:

Cut the pipe

Set the fitting and the pipe in the tool

Connect the fitting and the sleeve to the pipe - in single step

Done

About Sagiv

In the heart of the Negev

Located at Mashabei Sadeh, Sagiv is Israel's leading company for the production and export of ball valves, special valves and accessories on demand. These allow full control of water, gas, petrol and oil flow. Our products are integrated within many systems in industry, construction, air conditioning and agriculture.

International Presence

Our plant exports its products to the most advanced and demanding industrialized nations in the world along with developing areas who are seeking advanced flow control solutions.

Close to the Customer

Our R&D department works in close liaison with the engineering divisions of our clients. In this way we can give responses in real time to the unique requests that often arise with client projects.

Excellent Reputation

Sagiv has earned a reputation for high quality, creativity and reliability. As a result of our extensive experience on the industry and our passion to solve the challenges introduced by our customers.

Financial Strength

Sagiv is equally owned by Kibutz Mashavey Sade and by Gaon Holdings Ltd, one of Israel's leading investment companies. Gaon Holdings deals primarily in the water infrastructure industry, water related projects and agriculture.
